SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Trade name : Argon, Aliqal 6, Arcal Prime
SDS no : AL032
Chemical description : Argon
CAS-No. : 7440-37-1
EC-No. : 231-147-0
EC Index-No. : ---
Registration-No. : Listed in Annex IV / V REACH, exempted from registration.
Chemical formula : Ar

1.2. Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses : Industrial and professional. Perform risk assessment prior to use.
Test gas/Calibration gas.
Purge gas, diluting gas, inerting gas.
Purging.
Use for manufacture of electronic/photovoltaic components.
Shield gas for welding processes.
Laboratory use.
Food applications.
Contact supplier for more information on uses.

Uses advised against : Consumer use.

1.3. Details of the supplier of the safety data sheet
Company identification : Air Liquide Australia Limited
Level 9 / 380 St. Kilda Road
3004 Melbourne VIC Australia
+61 3 9697 9888
ALAEEnquiries@AirLiquide.com

1.4. Emergency telephone number
Emergency telephone number : 1800 812 588

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification according to WHS Regulation
Physical hazards : Gases under pressure : Compressed gas H280

2.2. Label elements
Classification according to WHS Regulation
Hazard pictograms : 

Signal word : Warning

Hazard statements : H280 - Contains gas under pressure; may explode if heated.

Precautionary statements

- Storage : P403 - Store in a well-ventilated place.

2.3. Other hazards

: Asphyxiant in high concentrations.

SECTION 3: Composition/information on ingredients

3.1. Substances

<table>

<td>(CAS-No.) 7440-37-1 (EC-No.) 231-147-0 (EC Index-No.) --- (Registration-No.) *1</td>
<td>100</td>
<td>Press. Gas (Comp.), H280</td>
</tr>
</tbody>
</table>

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*2: Registration deadline not expired.

*3: Registration not required: Substance manufactured or imported < 1t/y.

Full text of R-phrases see section 16. Full text of H-statements see section 16.

3.2. Mixtures : Not applicable

SECTION 4: First aid measures

4.1. Description of first aid measures

- Inhalation : Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.

- Skin contact : Adverse effects not expected from this product.

- Eye contact : Adverse effects not expected from this product.

- Ingestion : Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

: In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Refer to section 11.

4.3. Indication of any immediate medical attention and special treatment needed

: None.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Air Liquide Australia Limited
Level 9 / 380 St. Kilda Road 3004
Melbourne VIC Australia
+61 3 9697 9888

EN (English) SDS Ref.: AL032 2/9
ARGON, Compressed (Ar)

SDS Ref.: AL032

- Suitable extinguishing media: Water spray or fog.
- Unsuitable extinguishing media: Do not use water jet to extinguish.

5.2. Special hazards arising from the substance or mixture

Specific hazards: Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products: None.

5.3. Advice for fire-fighters

Specific methods: Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.
If possible, stop flow of product.
Use water spray or fog to knock down fire fumes if possible.
Move containers away from the fire area if this can be done without risk.

Special protective equipment for fire fighters: In confined space use self-contained breathing apparatus.
Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.
Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

Hazchemcode: 2T

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- Try to stop release.
- Evacuate area.
- Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.
- Ensure adequate air ventilation.
- Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.
- Act in accordance with local emergency plan.
- Stay upwind.
- Oxygen detectors should be used when asphyxiating gases may be released.

6.2. Environmental precautions

- Try to stop release.

6.3. Methods and material for containment and cleaning up

- Ventilate area.

6.4. Reference to other sections

- See also sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Safe use of the product: 
- The product must be handled in accordance with good industrial hygiene and safety procedures.
- Only experienced and properly instructed persons should handle gases under pressure.
- Consider pressure relief device(s) in gas installations.
- Ensure the complete gas system was (or is regularly) checked for leaks before use.
- Do not smoke while handling product.
- Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.
- Avoid suck back of water, acid and alkalis.
- Do not breathe gas.
- Avoid release of product into atmosphere.

Safe handling of the gas receptacle: 
- Refer to supplier's container handling instructions.
- Do not allow backfeed into the container.
- Protect cylinders from physical damage; do not drag, roll, slide or drop.
- When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders.
- Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use.
- If user experiences any difficulty operating cylinder valve, discontinue use and contact supplier.
- Never attempt to repair or modify container valves or safety relief devices.
- Damaged valves should be reported immediately to the supplier.
- Keep container valve outlets clean and free from contaminants particularly oil and water.
- Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment.
- Close container valve after each use and when empty, even if still connected to equipment.
- Never attempt to transfer gases from one cylinder/container to another.
- Never use direct flame or electrical heating devices to raise the pressure of a container.
- Do not remove or deface labels provided by the supplier for the identification of the cylinder contents.
- Suck back of water into the container must be prevented.
- Open valve slowly to avoid pressure shock.

Conditions for safe storage, including any incompatibilities: 
- Observe all regulations and local requirements regarding storage of containers.
- Containers should not be stored in conditions likely to encourage corrosion.
- Container valve guards or caps should be in place.
- Containers should be stored in the vertical position and properly secured to prevent them from falling over.
- Stored containers should be periodically checked for general condition and leakage.
- Keep container below 50°C in a well ventilated place.
- Store containers in location free from fire risk and away from sources of heat and ignition.
- Keep away from combustible materials.

Specific end use(s): 
- None.

SECTION 8: Exposure controls/personal protection

Control parameters: 
- OEL (Occupational Exposure Limits): No data available.
- DNEL (Derived-No Effect Level): No data available.
- PNEC (Predicted No-Effect Concentration): No data available.

Exposure controls: 

Appropriate engineering controls: 
- Provide adequate general and local exhaust ventilation.
- Systems under pressure should be regularly checked for leakages.
- Oxygen detectors should be used when asphyxiating gases may be released.
- Consider the use of a work permit system e.g. for maintenance activities.

Individual protection measures, e.g. personal protective equipment: 

A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered:
PPE compliant to the recommended EN/ISO standards should be selected.

• Eye/face protection
  - Wear safety glasses with side shields.
  Standard EN 166 - Personal eye-protection - specifications

• Skin protection
  - Hand protection
    - Wear working gloves when handling gas containers.
    Standard EN 388 - Protective gloves against mechanical risk.
  - Other
    - Wear safety shoes while handling containers.
    Standard EN ISO 20345 - Personal protective equipment - Safety footwear.

• Respiratory protection
  - Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres.
  Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

• Thermal hazards
  - None in addition to the above sections

8.2.3. Environmental exposure controls
  - None necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance
  - Physical state at 20°C / 101.3kPa: Gas.
  - Colour: Colourless.

Odour
  - No odour warning properties.

Odour threshold
  - Odour threshold is subjective and inadequate to warn of overexposure.

pH value
  - Not applicable for gases and gas mixtures.

Molar mass
  - 40 g/mol

Melting point
  - -189 °C

Boiling point
  - -186 °C

Flash point
  - Not applicable for gases and gas mixtures.

Critical temperature [°C]
  - -122 °C

Evaporation rate (ether=1)
  - Not applicable for gases and gas mixtures.

Flammability range
  - Not flammable.

Vapour pressure [20°C]
  - Not applicable.

Vapour pressure [50°C]
  - Not applicable.

Relative density, gas (air=1)
  - 1.38

Relative density, liquid (water=1)
  - Not applicable.

Solubility in water
  - 67.3 mg/l

 partition coefficient n-octanol/water [log Kow]
  - Not applicable for inorganic gases.

Auto-ignition temperature
  - Not flammable.

Decomposition point [°C]
  - Not applicable.

Viscosity [20°C]
  - No reliable data available.

Explosive Properties
  - Not applicable.
ARGON, Compressed (Ar)

SDS Ref.: AL032

Oxidising Properties : Not applicable.

9.2. Other information
Other data : Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

SECTION 10: Stability and reactivity

10.1. Reactivity
: No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability
: Stable under normal conditions.

10.3. Possibility of hazardous reactions
: None.

10.4. Conditions to avoid
: Avoid moisture in installation systems.

10.5. Incompatible materials
: None.
   For additional information on compatibility refer to ISO 11114.

10.6. Hazardous decomposition products
: None.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity : No known toxicological effects from this product.
Skin corrosion/irritation : No known effects from this product.
Serious eye damage/irritation : No known effects from this product.
Respiratory or skin sensitisation : No known effects from this product.
Germ cell mutagenicity : No known effects from this product.
Carcinogenicity : No known effects from this product.
Toxic for reproduction : Fertility : No known effects from this product.
Toxic for reproduction : unborn child : No known effects from this product.
STOT-single exposure : No known effects from this product.
STOT-repeated exposure : No known effects from this product.
Aspiration hazard : Not applicable for gases and gas mixtures.

SECTION 12: Ecological information

12.1. Toxicity
Assessment : No ecological damage caused by this product.

12.2. Persistence and degradability
Assessment : No ecological damage caused by this product.

12.3. Bioaccumulative potential
Assessment : No data available.
12.4. Mobility in soil

Assessment: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.

12.5. Results of PBT and vPvB assessment

Assessment: No data available.

12.6. Other adverse effects

Effect on the ozone layer: None.
Effect on global warming: None.

**SECTION 13: Disposal considerations**

13.1. Waste treatment methods

May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Return unused product in original cylinder to supplier.

List of hazardous waste codes (from Commission Decision 2001/118/EC): 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.

13.2. Additional information

External treatment and disposal of waste should comply with applicable local and/or national regulations.

**SECTION 14: Transport information**

14.1. UN number

UN-No.: 1006

14.2. UN proper shipping name

Transport by road/rail (ADG): ARGON, COMPRESSED
Transport by air (ICAO-TI / IATA-DGR): Argon, compressed
Transport by sea (IMDG): ARGON, COMPRESSED

14.3. Transport hazard class(es)

Labelling: 2.2: Non-flammable, non-toxic gases

Transport by road/rail (ADG)

Class: 2
Hazchemcode: 2T
Hazard identification number: 20
Tunnel Restriction: E - Passage forbidden through tunnels of category E

Transport by air (ICAO-TI / IATA-DGR)

Class / Div. (Sub. risk(s)): 2.2
ARGON, Compressed (Ar)

SDS Ref.: AL032

Transport by sea (IMDG)
Class / Div. (Sub. risk(s)) : 2.2
Emergency Schedule (EmS) - Fire : F-C
Emergency Schedule (EmS) - Spillage : S-V

14.4. Packing group

Transport by road/rail (ADR/RID) : Not applicable
Transport by air (ICAO-TI / IATA-DGR) : Not applicable
Transport by sea (IMDG) : Not applicable

14.5. Environmental hazards

Transport by road/rail (ADR/RID) : None.
Transport by air (ICAO-TI / IATA-DGR) : None.
Transport by sea (IMDG) : None.

14.6. Special precautions for user

Packing Instruction(s)
Transport by road/rail (ADR/RID) : P200
Transport by air (ICAO-TI / IATA-DGR)
  Passenger and Cargo Aircraft : 200
  Cargo Aircraft only : 200
Transport by sea (IMDG) : P200

Special transport precautions : Avoid transport on vehicles where the load space is not separated from the driver's compartment.
Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.
Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure cylinder valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

HAZCHEMCODE : 2T

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

: Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations
Ensure all national/local regulations are observed.

15.2. Chemical safety assessment

: A CSA does not need to be carried out for this product.
**SECTION 16: Other information**

**Indication of changes**

**Abbreviations and acronyms**

**Training advice**
The hazard of asphyxiation is often overlooked and must be stressed during operator training.

---

**Press. Gas (Comp.)**  
**Gases under pressure : Compressed gas**

**H280**  
Contains gas under pressure; may explode if heated.

---

**DISCLAIMER OF LIABILITY**
Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Details given in this document are believed to be correct at the time of going to press. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
